PITCH BLACK. The sound of cheering and booing coagulates immitating the sound of clashing waves

Ding Ding

INT. EXOFIGHT RING. NIGHT

Crash. Metal fist clangs against a suit of armor, hoisted together by nails and pistons. The steam exuding from the joints blows out as the whirring of motors signal the fight to stay alive.

One fighter in a bronze exosuit is on the floor covered in grease and sweat as the other stands over them victorious.

The one on the ground rushes against him while the other gloats and as the two bodies collide again, a young asian girl next to maid in a formal dress can be seen from the audience gazing upon them with awe.

CUT TO:

INT. LOCKER ROOM. NIGHT

The bronze fighter is getting yelled at by his coach. We hear him berate the fighter as her suit mechanic fixes the hydrolic joints.

The coach leaves walking past the young girl who's hiding by the door. The girl peeks out moving her leg forward when

The loud clang of a tin bucket as she kicks it. She's shocked and a little embarrassed

MECHANIC

Don't worry about that it's fine.

The fighter sits still as the mechanic continues working on her suit. The young girl steps closer

FIGHTER

Where're your folks at, kid?

The girl is quiet but her mouth opens, wanting to speak. Her little voice makes it out.

LITTLE REN

You're really strong! How did you get strong?

The fighter and mechanic look at each other, they start chuckling making little Ren blush

FIGHTER
Lots of protein and hard--

The mechanic adjusts the arm, making the fighter yelp. The mechanic shows off his work.

MECHANIC
This is an EXO-FRAME. An early
model I refitted to help this
knucklehead.

While lost in his explanation the mechanic misses the girl picking up the replacement arm. She struggles to pick it up. The fighter helps her out holding it with one hand.

FIGHTER
Bit too heavy for you right now
though (chuckling)

The girl remains fascinated, all noise is drowned out as she focuses on the exosuit moving.

CLOSE UP: The hydrolic joints sliding as they move releasing steam out of the exhaust vents. The whirring of the motors as each movement consumes energy. A muffled voice gets louder breaking her out of her trance

MECHANIC
Hello! Excuse me!

The girl looks back up at the duo

MECHANIC (CONT'D)
What's your name?

The girl's eyes sparkle. She musters all of herself to speak--

CUT TO:

EXT. DESERT. NOW

We're back where we left off last episode. Mitch and Ren have rendezvouzed with their parties, now standing in the middle of nowhere next to a sign that read "DANGER RATTLESNAKES" A suspicious BLACK DOT in view

Ren, now a teenager, looks ahead at us, at the boys, with a certainty absent from the little girl.

REN
I'm Ren Zhao

Her hand is stretched out. Marty is caught off guard by the formality but recomposes himself, reciprocating.

MARTY

Marty Mendoza, (motions towards Tony) And this is my brother

Tony eagerly shakes her hand

TONY

Anthony Mendoza at your service

Mitch chuckles

MITCH

We call him Tony.

Dasha approaches, holding onto Chandra's hand

DASHA

Sup, I'm Dasha and this is Chandra

CHANDRA

Call me Chandy! And this is BeeBee!

She holds up her faithful plush dragon over her face.

CHANDRA (CONT'D)

(as BeeBee) Nice to meet you, but why are we out here in the desert?

Mitch is offput by BeeBee's question, but tries to humor her.

MITCH

Well uhh. (beat) Oh right, these are the coordinates for protocol 9.

REN

Protocol 9?

MITCH

Dr. Mendoza had all our comms and navigations synced to this location in the event of an attack. Actually there's about 15 protocols in place. Protocol 11 for example--

DASHA

Ok got it, not that important. But why here?

MITCH

That's what I'm trying to figure out.

The little dot shoots out a faint laser at Mitch's pocket where the device last was.

CHANDRA

Mitch! Watch out! Your legs getting attacked!

Chandra pulls out her trusted GREEN ARMY MAN deploying it into battle by throwing it at the sign. It bounces off

CHANDRA (CONT'D)

Man down! Man down!

Dasha picks up Chandra under her arm like a cat

DASHA

At ease soldier.

Mitch takes out the device from his pocket. The display on it reads "ACCESS GRANTED" before shutting off along with the laser.

After a beat of silence, the ground begins to shake. Dasha sets Chandra on the ground covering her for safety, Ren stretches her arm out to protect the girls and the boys struggle to not fall over

Then, from the sands, a chrome cylinder erodes, IDEA's branding on the top. It's ascent progressively slows allowing its form to be made apparent: An elevator

The ground ceases to tremble and the gang has a good look at it for a beat.

TONY

Welp! Guess that's for us!

CUT TO INTRO

INT. SECRET ELEVATOR. NIGHT

Cramped, squished together like tuna in a can, the gang descends into the unknown unable to move their limbs. Even poor Chandra has no wiggle room whatsoever. After a beat of silence.

DASHA

Ow! Who pinched me?

She turns her head to Tony

DASHA (CONT'D)
It was you wasn't it?

Tony looks offended

TONY
Why me? I don't even know you

Dasha looks even more offended

DASHA
Rude! Of course you do, I was at
your birthday party

TONY
You were?

DASHA
Yeah! You had that monkey shirt!

TONY
Wait you're that mean kid with the
Russian parents. But that was a
boy though wasn't it?

With no hesitation she stomps on Tony's foot. Tony yelps in pain

REN
Dasha! That wasn't nice!

MITCH
Tony! That was rude!

The elevator dings. They're here.

INT. SECRET LAB.

As the elevator doors slide open, their silhouettes pop out into the dark

TONY
Yeah nah, no one's home let's go

His silhouette reaches for a button and the doors start to close

MARTY
Don't be a baby

THE doors open again.

REN
Where's the switch?

The lights flicker on as whirring of computer fans blast out. Monitors flicker, and all the desks and appliances on top are covered in a layer of dust.

CHANDRA
Ahh! The light

Chandra runs and hides under the desks. Dasha goes and grabs her while the rest move on ahead

DASHA
Come on, what's the hold up!

Ren pats Dasha's shoulder, then approaches Chandra under the table.

REN
Hey Chandy, what's up?

CHANDRA
BeeBee thinks this place is dangerous

She holds up BeeBee in front of her face. Ren takes hold of him, speaking to him in Chandra's earshot

REN
C'mon BeeBee, what's going on bro?
You can't be acting all scared when
your best friend needs you. Don't
worry, we gotcha

Dasha steps forward

DASHA
And don't worry. Just stand close
to me and you'll be okay

She flexes her arm though she has no muscle, which makes Chandra chuckle. Dasha extends her hand to Chandra and the two catch up to the gang

TONY
They're kinda weird, huh bro?

Marty is standing in a corner typing away at his laptop.

The gang makes their way further through the hallways. Marty's computer battery dies, he opens his back pack and finds all his rechargeable batteries are blinking red

MARTY

I hope we find an outlet soon

REN

Really? That's what you're thinking right now?

MARTY

I just found a root access to the main system. They actually have a very sophisticated structure. With an extra charge of battery I should be able to--

Tony has walked passed him by this point, talking with Mitch. He's not too surprised but he looks a little bit down about it.

In this moment someone comes up to his side strolling merrily.

REN

Not surprising you're having a hard time with the security system

Marty's startled, almost dropping his laptop

MARTY

Oh Ren!

REN

She designed it y'know, my mom. I can tell by the layout of the building. This is 7th Generation facility.

Marty closes his laptop, pushes up on his glasses a bit.

MARTY

Wait you said your last name is Zhao. As in Lynn Zhao?

Tony bursts into the conversation

TONY

THE Lynn Zhao?!

SMASHCTUT TO
FLASHBACK

INT. CURRIE ACADEMY. THE PAST

We're at the gym at Currie academy years ago. There's a CRT kind of affect as we see a young girl holding an award as she sits on a chrome drone, set on the floor.

TONY (V.O.)
The one who designed the Crossbone
Model V drone when she was just 12?

REN (V.O.)
Uhh I think so?

The drone levitates wishing the young Lynn around the school hall

INT. SECRET LAB. HALLWAYS

REN
But you already knew that Tony!

MARTY
Yeah, you remember Ren's been to
our house a few times when we were
younger.

After saying this he blushes a little recoiling into himself.

DASHA
Now that I think about it, Chandy
was there at the party, weird.

MITCH
Not too weird. Our folks work
together after all.

TONY
Whoa!!!

DASHA
Could you be any louder?! It's not
that exciting

Tony speeds past Dasha towards a room labeled Robo-Mechanics hall.

INT. SECRET LAB. MECHANIC ROOM.

Machines sound out as the fans of all these computers struggle to keep cool. The dust prevents some fans from spinning, while others are capable of doing their job.

As we get a better look at the view we see drones, robots, vehicle prototypes and an exosuit put away in a bulletproof glass display. Tony is in complete awe

Ren gazes the suit. We can hear the faint echoe of cheering, a bell ringing and hits before *SHOOM* the door opens behind them.

Mitch and Marty walk in and take a look around

TONY
Guys this place is amazing! Look
its an SR3! Wheres the remote?

Tony runs right up a to an armored military drone, looking around for a control of some kind.

INT. SECRET LAB. HALL

Dasha and Chandra hang back outside the room, there doesn't seem to be a path forward in that room so no point. Chandra tugs on Dasha's skirt

CHANDRA
What's that!?

Dasha turns and sees a light moving at the end of the hall, going further down.

DASHA
Not sure...

She grabs her hand and the two make their way towards the light, treading with caution.

INT. SECRET LAB. MECHANIC ROOM

MITCH
Whoah!!!

The SR3 drone flies right towards Mitch's head almost taking his head off.

MITCH (CONT'D)
Hey watch it Tony!!!

Tony is in a state of euphoria., Masked only by the goggles he has on while piloting the drone.

We see the Drone's POV as it flies around the lab, moving past Ren and halting right in front of Marty who's sitting in a corner on his laptop, finally plugged in and charging.

Marty looks at the drone, at us. The first time we've seen him smile.

MARTY
LET'S GO!!!

MITCH (O.C.)
What'd you find?

No longer in the drone's POV, Marty and the drone turn towards Mitch. He flips his laptop over showing command terminal.

MARTY
This lab doesn't just belong to
IDEA!

INT. SECRET LAB. DARK ROOM

SHOOOM The door opens. Chandra is holding onto Dasha tightly. Dasha takes out her phone and a flashlight emanates. Unlike the other rooms, this one is amess. The power is off and rather than a sea of incredible inventions, they find a sea of empty desks

Papers scattered, torn, the words faded after years of deterioration. At the end of the room, Dasha spots a boot. A person?

DASHA
I think I see someone. Hey! Sir,
are you awake?

Dasha lets go of Chandra for but a moment. She looks around and see brokend windows, large cables scattered around. She steps back hoping to feel some kind of safety. *CLACK* she steps on something.

They see a face

INT. SECRET LAB. MECHANIC ROOM

MARTY

According to the names attached to some of the documents I've been able to recover, this place was commissioned by the military about 15 years ago-

CHANDRA (O.S.)
 AHHHHHHHHHHHHHHHHHH!!!!!!!

The rest of the gang turns at a spine chilling scream from across the hall.

CUT TO
 COMMERCIALS

*note: Eye Catch maybe?

INT. SECRET LAB. DARK ROOM

SHLAAAM!!!! The door slides open revealing Mitch Marty and Tony standing at the ready to fight off whatever threat Dasha and CHandra are facing.

TONY
 Leave them alone!

And yet no danger to be found. Chandra and Dasha stand over a portrait of a man in military uniform. The rest of the room remains empty for the most part.

CHANDRA
 I stepped on something!

Looking down, her shoe rests on top of a portrait of a man in military uniform. His tag and name displayed proudly on his chest. L.Matthews. Mitch approaches the portrait, pulling out the picture from the frame.

MITCH
 Lieutenant Matthews. 2099

MARTY
 That was one of the names in the commission docs. The primary investor.

TONY
 So he's the guy responsible for this place?

A window opens up on Marty's computer, reflecting on his lenses. His eyes darken

MARTY
 No... Just his money. The one responsible is...

He scrolls down and sees the name Ma.MENDOZA Mo. Mendoza. Tony peeks over, his smile turns into a frown.

TONY
Mom and dad.

The rest of them give them a sad glance. Except Dasha, standing there with arms crossed, her eyes directed towards a security camera with the light on.

CAMERA POV:

We see Dasha looking up inquisitively as the camera takes note of her facial structure zooming in. The word INTRUDER in BRIGHT RED TEXT on the HUD.

INT. SECRET LAB. CONTAINMENT FACILITY

A large pod, the numbers 081 printed on its face, sits in a dark room entangled in long thick cables connected to large bulky computers.

The lights flicker on as the pods begin to open. Light peering out as we see machines inside begin to move.

INT. SECRET LAB. DARK ROOM

BLACKOUT from outside the room. The kids exclaiming their confusion. RED LIGHTS bathing everyone in crimson, followed by a constant siren

LAB COMPUTER
INTRUDERS. STAND BY TO BE DETAINED.
INTRUDERS. STAND BY TO BE DETAINED.
INTRUDERS. STAND BY TO BE DETAINED.

The recording loops

TONY
Great! What now!?

MARTY
Maybe we should run

MITCH
Nah, this place is empty, there
ain't even any gaurds around.

CHANDRA
BUBBY!

Chandra gleefully points at the entrance to the room. A towering figure stands tall at the doorway with the 08 displayed on its chest. It faces them with bright red light for a face.

081

Intruders! Stand by to be detained.

DASHA (O.S.)

We heard you the first time!

A chair flies right into the Robot's face

DASHA (CONT'D)

Come one lets go!

INT. SECRET LAB. HALLWAYS

The kids are on the wrong. As the alarm blares away. The children run as fast as they can, but the machine is not far behind them.

TONY

It's gaining on us! Mitch quick!
Use the holgram thingy!

Mitch is fiddling around with the device but nothing's happening

MITCH

I can't! It's not working for some reason!

They're coming upon a fork in the road. Right or Left?

DASHA

Which way do we go?!

CHANDRA

Leftsies!!!

TONY

Why?!

CHANDRA

Cuz I like the arrow is prettier!

TONY

That's not a good reason!

REN

Wait! She might be right!, Look!

As they come closer to the fork, they see a sign below the arrow "CONTROL ROOM"

REN (CONT'D)

There might be a way to stop it!.

MITCH
It'll just follow us!

Mitch's face lights up

MITCH (CONT'D)
I got it! Just keep going towards
the room. I have an idea!

The gang takes a sharp left while Mitch stays behind. He gets into a fight stance calling attention to himself.

MITCH (CONT'D)
Hey Metal Head! I'm over here!

The machine approaches Mitch, its focus completely on him now

081
Prepare to be detained.

MITCH
You'll need to catch me first!

He runs towards the rightward path. 081 following behind him. At first... It stops, takes a moment and turns around. The rest of the gang still in sight

081
Changing priority target.

081 proceeds to chase after the group again. Mitch turns around to see this

MITCH
C'mon man! I'm over here bro!

081 continues to ignore him. Mitch's face goes from dissapointed to ticked off. The device lights up on his wrist. He makes a sort of pitching motion like in baseball

MITCH (CONT'D)
I said: I'm over here-

The holographic jack forms as it did before and flies towards 081

MITCH (CONT'D)
Bro!!!

The jack slams into 081 leaving a large dent. It gets up. It's screen glitching out between the red light and a what looks like a face. Its attention is fully on Mitch

MITCH (CONT'D)

Hahah!

081

Threat detected

The face displays text. LEVEL 3 THREAT

MITCH

Why is it always me, man?

INT. SECRET LAB. HALLWAY 2

The kids are sprinting for dear life, Marty is carrying Chandra in his back. Tony is lagging behind while Dasha and Ren are in the front.

REN

Looks like we lost them.

MARTY

We gotta hurry! I don't know how long Mitch'll last

TONY

Nah he'll be fine. If he can fight a car he can fight some dumb ol robot

REN

He did what?!

Dead end. The kids stop themselves as they approach the end of the seemingly endless hallway. To their right is a door with the words control room above it. They try to open it like normal but nothing. Chandra hops off Marty's back casting a spell with her hands.

CHANDRA

Open Sesami!!

TONY

Don't won't work dummy!

DASHA

Don't call her dummy, Stupid!

TONY

Don't call me stupid Neanderthal!

DASHA
Don't call me neandertha-

Ren covers her mouth while Marty covers Tony's

REN
How about we stop here before you
get too creative in front of
Chandra

MARTY
Still how do we get this thing
opened?

Dasha escapes Ren's grasp

DASHA
Same as everything here!

She lunges herself, side kicking the door which absorbs the
whole of the impact reverberating it back to Dasha who falls
to the floor, holding back her tears

CHANDRA
(laughs) Shasha's silly!

A moment later the apparent dead end slides downward
revealing a secret doorway leading into a dark hallway. The
gang peeks inward.

DASHA
(in pain)See?

INT. SECRET LAB. FACTORY ROOM

Mitch's distraction has him leading 081 towards an active
factory room. THE conveyer belts are empty with nothing for
them to build as the machinery continues its regular routine

081 is still in pursuit as it goes after him on a catwalk
overlooking the factory. Mitch walks backwards as 081 slowly
approaches

MITCH
Okay look. I know things didn't
start off great between us. But
maybe if we talk some more you'll
see we actually got a lot in common

081 slams the guardrails of the catwalk, causing metal to
bend and nails to fall off. the creaking signaling impending
doom.

MITCH (CONT'D)

Like y'know if we get too rowdy on
this thing we both fall *nervous
laughing* see? Already so much in
commo-

081 swings its arm at Mitch who dodges it just in time. But the swift motion proves too much for the railing causing the bolts to fly out. A section of the catwalk is leaning away causing Mitch and 081 to tumble out onto the conveyer belts.

INT. SECRET HALLWAY.

The gang proceeds cautiously through hallway. A PULSATING LIGHT in the ceiling directs them to the end. Ren is now carrying Chandra on her back while Marty struggles to carry Dasha

MARTY

Why do I have to carry you now?

DASHA

Cuz the door sprained my ankle

TONY

YOU sprained your ankle moron.

DASHA

And you gave yourself brain damage.

MARTY

(annoyed) guys!

REN

We're here!

The they arrive at a large door. It looks diffirent than anything else in the hall. Older, more secure, bolted tightly. IN white faded paint it says "CONTAINMENT FACILITY"

(beat)

DASHA

Guys, Whenever we rescue our
parents I think we need to have a
talk with Marty and Tony's mom
about her thing with big creepy
doors

TONY

(to Marty) We can't let her get
away with saying that

MARTY

I'm gonna need to side with her on
this man.

TONY

Who's side are you on?

Chandra jumps down, running up to the door, she does a much longer motion than she did on the other door. As if casting a high level spell.

DASHA

We don't have time for this Chandy

Marty takes look at the door some more, Eureka, his face lights up having stewed in his ideas for a bit. He takes out his computer and begins typing as Chandra casts her spell.

CHANDRA

Open Open big scary door. Let me
see more and more! OPEN SEZAMI!!!

She surges her arms forward as she unleashes a powerful spell.

Nothing. We hear a little bit of typing for a beat. Then.

STEAM blows out as the locks on the door rotate and shift, the door parts in the middle revealing a room with lights all around.

TONY

How did that-

MARTY

Good job Chandra! You did it!

He motions to high five Chandra which she gladly responds, giggling. Ren looks a little surprised then glances at Marty who puts his finger to his lips shushing.

INT. SECRET LAB. FACTORY ROOM

Mitch gets up after the terrible tumble. He groans a bit as he lifts his head only to see 081 towering over him

081

Intruder, please consent to being
detained or I will be forced to
take drastic measures.

The conveyer belt is transporting them towards a labyrinth of moving parts.

Mechanical arms that rotate and contort driving their tools into invisible components. All while Mitch remains lost in plan.

MITCH

Uh. Nah?

081

Invalid response. Prepare for drastic measures.

081's arms extend, the nubs at the end now transform into claws, and rather than hover it ejects tank treads on its base.

Mitch is in awe, but there's no time to gawk. He turns around and heads towards the equally dangerous machinery awaiting him.

MITCH

Learn to take "nah" for an answer man!

As Mitch runs off following the conveyer belt.

INT. SECRET LAB. CONTAINMENT FACILITY

The gang arrives inside a room full of computers and power generators. Ren looks around at dismantled robot parts arranged neatly on a display table. Chandra is in complete awe and wonder at schematics detailing robots similar to the one that was just chasing them.

CHANDRA

Bubbies!!!

REN

Why do you keep calling them that?

CHANDRA

Because they look just like my Bubby!

Chandra takes out a drawing from her bag. It's a drawing of Bubby, her imaginary friend. It's shaped a little like 081.

TONY

Guys! Look!

Tony gathers everyone to a computer showing live video footage. It's 081's POV as it goes after Mitch.

The stream shows 081 Overpowering Mitch as they're being carried away by a conveyer belt

DASHA
We gotta do something!

MARTY
On it!

Marty pushes up his glasses and sits himself down typing a way at the keyboard moving through terminals.

MARTY (CONT'D)
Found it a control screen. This
format's unfamiliar though, I'll
see if I can find away around it.

He types away.

MARTY (CONT'D)
This encryption is tough. I keep
getting misderected. It's like
someone's placing barriers in real
time.

REN
Wait!

Ren takes a look at the menu screen Marty isn't familiar with

REN (CONT'D)
I've seen this UI before. Move over

Marty is thrown off as Ren moves him aside taking control. A quick glance at her taking the helm makes Marty blush a little.

REN (CONT'D)
This is an older program made for
programing machinery. Bit outdated
but it has it has it's quirks.

click she hits enter

INT. SECRET LAB. FACTORY ROOM

Mitch is fighting for dear life using his hologram jack to block the 081's attacks.

As the two fight, carried by the will of the conveyer belt. One of the factory machines lights up, a mechanical arm with a giant claw.

Mitch is at his wit's end

MITCH

C'mon, bro I'm running out of fun things to say, now I'm just tired.

081

Proper bedding is provided in the detention center

MITCH

Not what I had in mind!

Mitch blocks a swing from 081 but his strength is failing him. Exhausted, he slowly begins to surrender to his strength. This might be it.

(beat) But then, suddenly.

WHAM the Machinery swings at 081 slamming it off its balance allowing Mitch to break away. The conveyer belt speeds up while the arm grabs hold of 081 pinning it to the conveyer belt, the friction causing it to grind away at its back.

INT. SECRET LAB. CONTAINMENT FACILITY

DASHA

Where'd you learn to do that?

Ren is locked in and doesn't respond. She's maneuvering through the menus, changing values and accessing various equipment in the factory at once.

INT. SECRET LAB. FACTORY ROOM

Mitch has backed off away from the conveyer belt and is trying to find away out, but time's not on his side

081

In the case of hostile override,
damage to IDEA property is
permitted

081 grabs onto the equipment and rips the arm in half, freeing itself to pursue after Mitch

INT. SECRET LAB. CONTAINMENT FACILITY

REN

Oh no you don't!

She types away. The screen shows 5 boxes with the words
EQUIPMENT 4, 9, 14, 19

INT. SECRET LAB. FACTORY ROOM

4 pieces of equipment, A forklift, 2 other metal arms and a
autowelder "wake up" and rush towards 081

The forklift rushes it, but 081 is ready for the impact.
Holding itself down as the forklift tries to ram it into a
wall.

The two arms flank 081 swinging away at it while it's pre-
occupied with the forklift

INT. SECRET LAB. CONTAINMENT FACILITY

As Ren types away, the machinery swings. A bead of sweat
drips down her head As she enters a different headspace.

She's in the boxing ring, where she discovered her true
passions all those years ago. This time as one of the
fighters. With each swing she makes, the metal arms in the
factory do so as well.

Chandra looks up and sees Ren's face lit up with the glow
from the monitors. Her eyes are filled with urgency. But
her mouth has a slight grin to it. Like she's enjoying
herself.

INT. SECRET LAB. FACTORY ROOM

As the machine arms are wailing on 081, the autowelder
approaches from behind. Amongst the chaos, 081 takes notice
of this. It's face glitches out for a second as we see a
glimpse of its calculations.

081 ejects from its own tank treads allowing the forklift to
ram into the autowelder and the 2 arms slam eachother off
balance causing them to malfunction

INT. SECRET LAB. CONTAINMENT FACILITY

Ren smashes her fist at the control panel

REN

Dangit! That was cheap! You can't
just pull stuff out like that in
the middle of a match. It's
illegal! It's unfair!

(MORE)

REN (CONT'D)
If we were in the ring, that kind
of behavior would be grounds for
expulsion! Right?!

She turns around and sees the kids befuddled at her demeanor.

REN (CONT'D)
I- I uh...

DASHA
Dang Ren, I didn't know you had it
in ya

Ren blushes with embarrassment, pulling up her hoodie and
hiding her face.

TONY
What do we do now?!

The monitor that Ren was just on is blinking. A blue light.

MARTY
What's this?

Marty gets a closer look. A Blue light at the top corner of
the screen with a strange logo on it. It's a button. He
presses it and we hear a pleasant jingle followed by a voice

VOICE
Hello! Please input identification.

A camera slides out of the monitor and points right at
Marty's face

VOICE (CONT'D)
Logging identification

Tony lets out a yelp, startled by what's going on. Everyone
gathers around as the camera scans Marty's face

VOICE (CONT'D)
Logging complete. Facial structure
found in memory banks. Logged by
Dr. Mendoza. Hello Marty! Is there
anything I can help you with today?

INT. SECRET LAB. FACTORY ROOM

Mitch Is backed up against a wall. From the wreckage of the
factory machinery, 081 approaches. Scared for his life Mitch
tries to conjure something with his device, but it's no good.
Nothing's coming to him.

081

Stand by for detainment

It's arms are ripped and torn. All that's left are shapr pieces of metal and loose cables producing dangerous levels of electricity.

There's now way it can just grab Mitch. If they touch him he could get hurt or worse. Mitch recoils back as best as he can

INT. SECRET LAB. CONTAINMENT FACILITY

MARTY

I need you to help our friend,
Mitch. He's in the factory being
chased by that robot!

REN

But it's arms are all messed up.
If they touch him in that state
he'll get hurt!

VOICE

Analyzing

The camares in the Factory close up on Mitch, scanning his

VOICE (CONT'D)

Identity confirmed. Facial
structure found in identity banks

The computer takes a second to process this information

VOICE (CONT'D)

In order to minimize casualties, I
will enact protocol B-9

INT. SECRET LAB. FACTORY ROOM

081's mangled arms approach Mitch This might just be the end.

MITCH

Mom! I'm sorry I didn't just study
accounting like you did!

The arms halt. The red screen on 081's face shuts off then reboots with a smile. Then, no longer conducting electricity, 081 powers off right in front of him, losing its balance and falling right next to Mitch, almost crushing him.

He yelps.

Then, Laughs

Then faints.

FADE IN:

INT. SECRET LAB. CONTAINMENT FACILITY. LATER

Everyone including Mitch is gathered in the containment facility. Chandra is sitting on Ren's lap, , while Mitch is lying down being tended to by Dasha. Mitch flinches as Dasha treats his wounds.

DASHA

Hold still! This is my first time doing this.

MITCH

Sorry Dasha, my bad

Tony walks up to the command console, pressing the blue button again.

VOICE

Hello! Is there something you need?

TONY

Yeah, You can start by telling us who you are, what this place is!

VOICE

You already know what this place is. Marty found his way into the system and recovered those documents

MARTY

You've been watching us since we got here?

VOICE

Of course! Though I'll admit I hadn't been awake in so long.

MARTY

So you're this lab's main computer.

VOICE

Nothing so basic. I can exist outside the confines of this lab.

REN

Then what exactly are you?

It takes a moment. Waits a beat, then a machine rises up from the center of the room revealing a hologram of a feminine figure. The Hologram speaks

HELEN

I am intelligence. Put simply, I am the pride and joy of IDEA's top scientist, Dr. Maria Mendoza. but you can call me H.E.L.E.N

CUT TO BLACK.

EXT. HIGHWAY. NIGHT.

POLICE LIGHTS flash on the scene. The wreckage of a car being hoisted by industrial machines. Holographic police tape blocking off the scene as straffic continues to congest around the area. A police officer walks with 2 cups in his hand.

OFFICER

Busy night for ya huh?

There stands Detective Coover hunched over, inspecting the aftermath of Mitch's battle with the Grey Guy.

COOVER

Interesting.

He takes his cup

OFFICER

I can imagine

COOVER

No officer, I don't think you can

We look closer at what he was looking at. A license plate with a barcode. The frame around it says

"IDEA LABORATORIES INTERNSHIP"

TO BE CONTINUED
